

METOCHECK DMT-5

The Precision-Digital-Measuring-Tape in Pocket-Size

The modern type of a measuring tape:

Small, light weighted, handy, for measures of inner and outer distances up to 5 m / 16' length with 1 mm / 1/16" accuracy.

The METOCHECK DTM-5 with automatic on / off sensor switch.

The Digital Measuring Tape turns on and off automatically, when the tape is extended (on) or fully retracted back into the case (off). For measures of outer edge lengths use the reference point left bottom at the tape slot, for inner measures use the reference point right bottom. Switch between these methods with the „<>“-button. To save the data press the „hold“-button. With „in/cm“-button you switch between imperial and metric measures.

- Measuring tape: 5 m / 16' length 19 mm width, metal, with clear coating
- Display of data in metric and imperial values (decimal or fractions)
- Accuracy: 1 mm / 1/16"
- Measures can be saved (Hold-Function)
- Inner- and outer edge measures without cumulative tolerances.
- Power by common CR 1/3N battery
- Dimensions: 76 x 70 x 33 mm / 3" x 2.75" x 1.3"
